

E-Safety

At Elliott Park School we take e-Safety very seriously, it is a vital part of keeping children safe. Any e-Safety incidents are recorded and managed in accordance with our e-Safety Policy. We teach six e-Safety lessons over the school year, in these sessions we explain and demonstrate how to stay safe and behave appropriately online. Children are given the chance to discuss scenarios which they may come across and consider how they would deal with them. We try to make the lessons as engaging as possible, using games and videos as much as possible. Below is a table outlining our e-Safety curriculum:

Elliott Park School - E-Safety Scheme of Work - Year A

	YR	Y1	Y2	Y3/4	Y5/6
T1	e-Safety stories	Lee and Kim 1A Cartoon - Adventure Animal Magic	Episode 1 Hector's World	Cyber café 1 Ways to communicate	Game on Episodes 1 and 2
T2	Lee and Kim 1B Storybook - Adventure Animal Magic	Lee and Kim 2A Keeping Safe Game	Episode 2 Hector's World	Cyber café 2 Exploring the web	Game on Episodes 3 and 4
T3	Lee and Kim 2B Keeping Safe Game	Lee and Kim 3 Make an internet safety poster	Episode 3 Hector's World	Cyber café 3 Communication and information	Game on Episodes 5 and Vox Pops
T4	Lee and Kim 6A&B Song and Dance	Lee and Kim 4 Write a story about finding the treasure safely.	Episode 4 Hector's World	Cyber café 4 Using email safely	Jigsaw Video

Partnership with Parents

In order to keep our children safe online we need to work together with parents to ensure the e-Safety message is consistent. It is important that parents speak to their children about how they can keep safe and behave appropriately online. As part of our Welcome to the School pack we ask parents and children to read through and sign our Parents' and Children's Acceptable Use Policies. To help guide parents we send home a leaflet called 'Keep Your Children Safe Online' produced by Kent Trading Standards and Kent Safeguarding Children Board, which can be downloaded [here](#).

We hold an e-Safety forum for parents at least once a year to share guidance, information and discuss situations that may have cropped up. If parents have any questions or concerns they can talk to Miss Pennington, our e-Safety co-ordinator or Mrs. Hiller, Headteacher.

It's essential not to be too cautious. Banning the internet or technology will not work and it often makes a child less likely to report a problem as they don't want to be stopped using their phone, tablet or computer.

CEOP

CEOP (The Child Exploitation and Online Protection Centre) delivers a multi-agency service dedicated to tackling the abuse and exploitation of children in the real and 'e' world. Often it is referred to as an online 999. Young people and parents can get advice on a range of issues such as viruses, hacking and dealing with bullying online. The website is www.ceop.police.uk.

Search engines

At school we have Google Safe Search switched on the laptops, which filters through search results. It is important to note that no search engine is ever 100% safe. This support page from Google explains how to switch Safe Search on or off on computers, tablets and phones <https://support.google.com/websearch/answer/510?hl=en>.

Parental Controls

Qustudio is a free parental controls software download which allows parents to:

- Monitor chat
- Block harmful content from search results
- Limit the time spent online and on devices
- Restrict games or applications on devices
- Track a device
- See who a child calls or texts most
- Prevent access to mature or adult sites
- View and manage activities from anywhere
- Protect and monitor without children knowing
