

Relationships & Sex Education at Elliott Park Primary School

September 2021 - 2022

This policy covers our approach to Relationships Education; a statutory component of the Personal, Social and Health Education [PSHE] and Citizenship curriculum from September 2020. It aims to set out the purpose of Relationships Education and the intended outcomes for pupils, what is covered in our curriculum and how it is delivered. We define Relationships Education as learning about the many strands of relationships and growing up. This includes family relationships, friendships and relationships with peers and adults, healthy and unhealthy relationships, the characteristics of positive relationships, relationships online and the emotional, social, and physical aspects of growing up.

Purpose and Principles

At Elliott Park Primary School, we believe in providing every pupil with open, honest, accurate and age-appropriate lessons all about relationships. Through the school's ethos and values, we aim to develop children's knowledge, skills, opinions, strategies, and confidence - enabling them to cope with life and live safely and happily in the modern world. We highly value the partnership between school and home and will promote open and informative two-way communication. We aim to provide parents and carers with accurate information about what their child is learning in school and to provide the best learning environment and opportunities for our children. Our Relationships Education curriculum is inclusive and meets the needs of all children, including those with special educational needs or disabilities (SEND). We also aim to promote gender equality and represent the LGBT+ community through our Relationships curriculum.

Through our comprehensive Relationships Education provision, we aim to provide all pupils with:

- the knowledge and understanding of a variety of relationships
- the ability to identify any concerns they have about a relationship
- coping strategies and an awareness of how and where to seek support
- an understanding of their rights and responsibilities within a range of relationships
- an awareness of the process of growing up and the changes they and others will experience
- an understanding of the characteristics of positive relationships

Statutory Regulations

From September 2020, all primary schools must deliver Relationships Education. Under the Education Act 2002/Academies Act 2010, all schools must provide a balanced and broadly-based curriculum which:

- promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society
- prepares pupils at the school for the opportunities, responsibilities, and experiences of later life.

Documents that inform the school's Relationships Education Policy include:

- Education Act (1996);
- Learning and Skills Act (2000);
- Education and Inspections Act (2006);

Roles and Responsibilities

The Relationships Education programme in our school will be led by the PSHE lead, alongside the Head teacher. All staff members involved in teaching and supporting the Relationships Education curriculum will be provided with learning objectives, teaching resources and whole school overviews to ensure whole school progression.

Our Relationships and Health Education Curriculum [Statutory Requirement]

The aim of Relationships Education at our school is to help pupils develop self-respect, confidence and empathy. Pupils will learn about what makes healthy relationships, focusing on family and friendships, in a way that is age appropriate and sensitive to their faith. This will include online relationships, and how to seek help if they feel unsafe. Teaching will respect the diversity of families in our community. **Relationships education is not about sexual relationships.**

Our inclusive Relationships curriculum supports the objectives set out by the PSHE Association which meet the statutory requirements for Key Stage 1 and 2. It forms a core part of our comprehensive PSHE curriculum. Learning in Relationships Education lessons will link to learning in PSHE and science. Our lessons will be differentiated where appropriate, ensuring all children are able to participate fully. Children will be given the opportunity throughout the units of work to reflect on and evaluate their learning - assessment opportunities are built into every lesson.

Sex and Relationship Education [Non-Statutory Requirement]

The purpose of Sex and Relationship Education (SRE) is to provide knowledge and understanding of how the human body changes during puberty and the processes of human reproduction, within the context of relationships based on love and respect. It should develop understanding and attitudes which will help pupils to form relationships in a responsible and healthy manner and to appreciate the value of stable family life, including the responsibilities of parenthood and marriage.

If young people can start their transition into adulthood with good information and the confidence and knowledge to understand what is happening to them, they will grow into confident and healthy

adults able to make positive choices. This can start with learning the basics about growing up and the sessions in school may reinforce what you are already doing at home.

At Elliott Park Primary School, we follow the Twinkl Life Sex and Relationship Education units in Years 2, 4 and 6. The following lessons outline the SRE curriculum that will be taught in the summer term at Elliott Park.

Year 2

Unit and Lesson Title	Objectives Covered	Big Questions
Growing Up – Our Bodies	To know the names for the main parts of the body [including external genitalia] and the body similarities and differences between boys and girls. To know about the process of growing from young to old and how people’s needs change.	What are the main parts of the body called? What are the differences between girls and boys?

Year 4

Unit and Lesson Title	Objectives Covered	Big Questions
Growing Up – Human Reproduction	To know about human reproduction. To know how their body will, and their emotions may, change as they approach and move through puberty.	What are the differences between the male and female bodies? What are the male and female body parts for?

Year 6

Unit and Lesson Title	Objectives Covered	Big Questions
Growing UP – Let’s Talk about Sex	To know about human reproduction. To know about the differences between and the terms associated with, sex, gender identity and sexual orientation. To know about taking care of their body, understanding that they have the right to protect their body from inappropriate and unwanted contact; understanding that actions such as female genital mutilation [FGM] constitutes abuse and are a crime, and develop the skills and strategies required to get support if they have fears for themselves or their peers.	What is a sexual relationship? Who can have a sexual relationship? What is an STI? How can these be prevented?
Growing Up – Human Reproduction	To know about human reproduction. To recognise the different types of relationships, including those between acquaintances, friends, relatives and families.	How is a baby conceived? What is contraception? How does a baby grow? How is it born?

Parents can withdraw their children from all or part of sex education lessons that do not form part of the statutory National Curriculum [those lessons listed above]. Primary schools are required to teach the elements of sex education contained in the science curriculum and there continues to be no right to withdraw from these lessons. If you wish to withdraw your child from all or part of the

schools' sex education programme, please write to the headteacher before the programme starts in the summer term.

Delivering the Curriculum

Our PSHE lessons are taught by staff who are trained in delivering the specific content of the lessons. Ground rules will be established in class and children reminded of these. Special consideration will be given when teaching particularly sensitive content and staff will be fully aware of the children in their class and how they might relate to the lesson content.

We aim to create and maintain a safe environment within which all children feel able to ask questions and discuss issues openly. For any child wishing to discuss something confidential, relating to the lesson content, an opportunity will be provided.

Distancing techniques will be employed in our Relationships Education, as with other areas of the PSHE curriculum, meaning that children are able to discuss fictional characters and scenarios, rather than discuss their own lives and experiences.

In order to meet the needs of all children and to make our lessons engaging, we aim to deliver our Relationships Education curriculum through a variety of teaching methods and interactive activities.

Assessment, Monitoring and Reporting

Self-assessment is an important part of learning in Relationships Education and PSHE. Children will reflect on their learning throughout the units. We highly value pupil voice and will consider the opinions and comments of our children about what they would like to learn.

Staff delivering the Relationships curriculum will critically reflect on their teaching and best practice will be shared through lesson observations, monitoring of planning and children's work and training opportunities.

Children's learning and progress in Relationships Education, as part of their learning in PSHE, will be reported to parents and carers in the end of year report and can be discussed at parent consultation evenings.

Safeguarding

Teachers are aware that effective SRE, which brings an understanding of what is and what is not appropriate in a relationship, can lead to a disclosure of a child protection issue. In this instance, teachers will consult with the designated safeguarding lead and in her absence, their deputy.

Safeguarding lead – Mrs Dolman

Safeguarding lead (Early Years) - Mrs Hiller

Visitors and external agencies which support the delivery of Relationships Education will be required to adhere to the school's safeguarding policy and policies relating to the subjects they are teaching or contributing towards.

Engaging Stakeholders

This policy will be available to view on the school website by all stakeholders. Parents and carers have the legal right to withdraw their child from all or part of sex education taught as part of statutory Relationships Education, with the exception of the objectives included in National Curriculum science. Those considering this option are asked to speak with their child's class teacher in order to find out more about this.

Reviewing the Policy

This policy will be reviewed on an annual basis. This will ensure that information is accurate and follows up-to-date statutory requirements and that the views of all stakeholders are heard and considered regularly.

Next review date: September 2022.
